

# COLOR FUSE

## Process

### 1) DESIGN

Your art is processed professionally to color fuse finishing specifications.

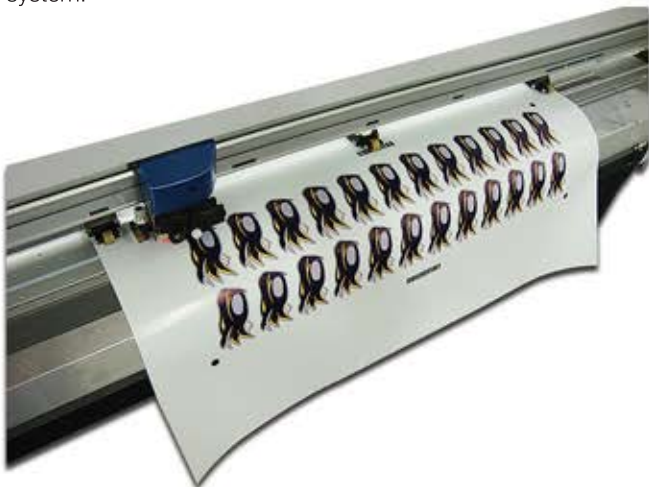

### 2) DIGITAL PRINT

Designs are printed on a proprietary adhesive material using state of the art printing.

### 3) DIGITAL CUT

Finished design is precisely cut using a laser aligned cutting system.

### 4) PRE-TEST

Removing the excess digital paper reveals a pristine, high quality logo ready to be placed on a product.

### 5) APPLICATION

Garments are pretreated and heat processed to required specifications.

### 6) FINISHED PRODUCT

Your design is now complete!
